

Rose Hill School St. Park/Pond

The City of Rose Hill is excited to introduce our community to the Rose Hill School St. Park & Pond. The pond encompasses approximately 9 acres of the 20 acre School St. Park. The City will be assisted by the Kansas Department of Wildlife and Parks in the development of a community fishery and associated habitat improvements. As

funding allows, walk paths and other amenities will be added. The School St. Pond will achieve a dual purpose as well. It will address increased upstream drainage to this area due to growth *and* provide an opportunity for added recreational facilities. It will be a tremendous asset to our community for many years to come. If you have any questions about this project please contact Kathy Raney at City Hall at (316) 776-2712.
